

PYES PA SCHOOL

School Bus

Recently in our school newsletter, I talked about an incident concerning a student from Tauriko School, where a man tried to coax the student into his car. The Ministry of Education provides a school bus for those students who require it to get to and from school. Once the students are on the bus, there are no teachers present on the bus – only the bus driver. The bus driver does make an attempt to ensure the safety of each student as he drops them off. However, he cannot wait around if the parent has not arrived to pick up a student. Therefore, this note is a reminder that every student must be met by their parent/caregiver at the bus.

There are a number of students dropped off at the Cemetery in the afternoon, please ensure that you are at the cemetery by 3:15pm to ensure that you can meet your child when the bus drops them off. For those that are being dropped off at home, wherever possible the bus driver will drop your child off at his/her driveway. In the instances where the bus cannot do this we request that you meet your child and ensure that they cross the road safely.

Kind regards,

Brendan Clarkin
